Employee leave is one of the top three areas that can prompt charges filed with EEOC. A vague understanding of these issues can quickly lead to confusion and potential problems. As an employer you need to know the legal requirements and recommended tracking process. In this workshop you will:

- Understand the definitions of employee/employer rights and responsibilities related to various types of leave.
- Understand regulations, guidelines and eligibility for appropriate compliance.
- Is your organization subject to the requirements of the Family and Medical Leave Act (FMLA)?
- Do all of your employees qualify?
- Develop your leave policy checklist and fact sheet.

Get answers to these questions and more at this informative complimentary workshop hosted by Business & Career Services, Inc. at the Illinois workNet American Job Center and presented by Charles Krugel, Human Resources Attorney & Counselor: Labor & Employment Law on Behalf of Management. He works with small to medium-sized companies in a variety of industries such as options & securities trading, technology, banking & manufacturing. In addition to providing these companies with traditional labor and employment law services, he represents companies desiring to institute preventive and proactive HR functions. Space is limited so pre-reserve early.
